

Auto Gold[®]

Synthetic Blend Gasoline Engine Oil

General Description

Auto Gold[®] synthetic blend gasoline engine oils are designed to meet the newest and most stringent industry performance standards; API-SN Plus, Resource Conserving and ILSAC GF-5. Auto Gold also meets new car warranty requirements and is backward compatible to older API, ILSAC and OEM performance standards.

Auto Gold is formulated with a combination of high quality, mineral and synthetic base oils and a high viscosity index improver for excellent extreme temperature pumpability and anti-wear protection during cold startups.

The new and improved additive system has the proper balance of anti-wear, detergents, dispersants, oxidation inhibitors, rust, corrosion and foam inhibitors. The advanced technology includes friction modifiers to maximize fuel economy and the correct phosphorus levels to minimize engine wear and increase emission system protection.

Features and Benefits

- **Resource Conserving:** Exceeds API SN Plus /ILSAC GF-5 with improved fuel economy, catalysts protection and emission system durability.
 - **Oxidation Prevention and Control:** Provides outstanding oxidation control, prevents volatility, thermal and viscosity breakdown caused by degradation; thus, reducing oil consumption.
 - **Anti-wear Protection:** Contains zinc dialkyl dithio phosphate (ZDDP) an additive component used to reduce wear, protect highly-loaded engine parts and extends engine life.
 - **Oil Pumpability:** Formulated to improve lubrication to critical engine parts which reduces wear during cold temperature startups.
 - **Flex-Fuel Vehicle Compatible:** Meets lubricant requirements when using ethanol containing gasoline up to E-85.
 - **Extended Drain Intervals:** Meets the requirements outlined for the new electronic oil life sensor and the OEM owner manual recommendations.
 - **Warranties:** Exceeds ILSAC GF-5 requirements for new cars under warranty including most American, Asian, and European cars.
- Always follow your equipment's manufacture's recommendation for viscosity grade and service classification.**

Auto Gold[®]

Synthetic Blend Gasoline Engine Oil

Typical Applications

Auto Gold[®] synthetic blend engine oil is formulated to exceed a variety of gasoline engine specifications and manufacturers' requirements:

- **Ford:** WSS M2C930/945-A(5W-20), M2C929/946-A (5W-30), **GM:**6094M, and **Chrysler** MS-6395S along with **Toyota** and **Honda** service fill

Typical Customers

- New and older cars, trucks with naturally aspirated or turbocharged engines.
- Gasoline/Electric hybrids engines.
- Propane fueled engines.
- Stationary and off-highway engines.
- Operators of gasoline engines in passenger cars, trucks, agricultural, construction and commercial equipment.

Typical Properties

SAE Grade	5W-20	5W-30	10W-30
API Service	SN Plus	SN Plus	SN Plus
ILSAC	GF-5	GF-5	GF-5
Resource Conserving/Energy Conserving	Yes	Yes	Yes
API Gravity / lbs.gal	32.5 / 7.18	32.6 / 7.18	31.0 / 7.25
Flash Point, °C (°F)	220 (429)	220 (429)	228 (440)
Pour Point, °C (°F)	-45 (-49)	-43 (-45)	-40 (-40)
Viscosity @40 °C, cSt	49	61	66
Viscosity @100°C, cSt	8.5	10.5	10.5
Viscosity Index	151	163	148
CCS Viscosity, cP @ °C	6,000@ -30	6,000@ -30	5500@ -25
Viscosity @-30°C, cP (MRV-TP1)(SAE 10W)	—	—	19,000
Viscosity @-35°C, cP (MRV-TP1)(SAE 5W)	21,000	25,000	—
High Temp/High Shear (HTHS @150°C cP)	2.7	3.1	3.1

(1) Auto Gold SAE 30 is an all mineral oil formulation.

The typical properties listed reflect the general characteristics of the product, and are not manufacturing specifications. Normal batch-to-batch variations should be expected.

Health & Safety
